PROJECTS

ReactJS App

I have created a working ReactJS application that functions as an editable Game of the Year site

Bookstore Site

I have created a framework for the online store of the Ranken Bookstore.

Issue Tracker

I have successfully made a working back end for an Issue Tracker that allows people to log in and post bugs they find. Along with a way to classify said bugs and deal with them.

SKILLS

Time Management, Quick Learning, JavaScript, C#, ReactJS, Python, Hypertext Markup Language, Cascading Style Sheet
